

ICOS BIG DATA CAMP

VISUALIZATION BASICS PART II

Created by A. R. Azari 5/16/2018

Set Up Guide -

STEP 1:

Go to - <https://icosbigdatacamp.github.io/2018-summer-camp/>

STEP 2:

Click on link with Matplotlib II with Abby Azari (VisualizationLesson.zip) – this should download a zip to your computer

STEP 3:

Unzip the zip folder somewhere you know you can find it again

STEP 4:

Open Jupyter notebook through Anaconda Navigator OR from the command terminal (by typing jupyter notebook)

STEP 5:

Go to where you unzipped the VisualizationLesson and **open the .ipynb file**

Once you have completed these steps - put your name tag end up OR put your green sticker on your computer up
